

Model NER

Packaged Make-Up Air Units Over 600 CFM

Note: apply fan kit adder below for a complete make-up air system. Fan kit includes inline fan and speed controller.

1-Jun-22

Compact Self-Contained Design Includes:

- Washable filter
- Backdraft damper
- Modulating electric heater
- Current sensing relay for automatic operation when exhaust fan starts
- High temperature protection
- Kw options for ΔT 's up to 100° F
- Custom units available in a variety of CFM's and voltages
- Dry contact for remote fan

* Stock Models

Note: For custom sizes (up to 25 Kw) including 208/1 and three-phase voltages, add 10% to the NER list only of the exact or next size up 240/1 model. Over 25 Kw, add 20%.

Custom Sizing Guide :

100° ΔT = 30 cfm per Kw

70° ΔT = 48 cfm per Kw

50° ΔT = 67 cfm per Kw

When ordering please specify the collar size, kW and voltage/phase as in the following example:

NER-12-20-600/3

Collar size (inches) — kW — Voltage/Phase

952-854-4400
